**AN OFFICIAL WARNING:** Under date of December 6, Dr. E. M. Gress, Chief Botanist, Pennsylvania Department of Agriculture, issued a warning to three thousand seed dealers, as well as farm buyers, to beware of tempting offers of seed bargains from out-of-State dealers.

We are now at the season of the year when certain types of mail order houses blossom forth with advertisements of wonderful "bargains" in farm seeds. Thousands of farmers are now considering these offers. You should call the following facts to their attention.

1. The State Laws cannot protect the farmer who buys in this manner, because the State inspectors have no way of inspecting the seed when it is delivered to the farmer. Even though it has been common knowledge that rank violations occur constantly, the practice continues and will probably remain a menace until the farmers thoroughly understand the evils attending much of this mail order business.
2. The State Department of Agriculture wishes to have the opportunity of testing samples of seed delivered by such houses.
3. Dealers who buy from such sources will be held responsible and are liable to a fine not to exceed \$200.00.

Dealers will serve their own interests as well as render real service to the farmers by calling this warning to their attention. Please remember that it is the practice of these distant mail order houses to try to sell the farmer very early in the season. We therefore urge the booking of farmers' orders as early as possible.

Prices quoted below are today's values f.o.b. Philadelphia. Samples sent promptly upon request. Bags not returnable. We can supply the principal field seeds packed in 1 bu. bags, the packing consisting of high grade material printed in washable ink. Write for details.

## (1) ALFALFA

### ALFALFA, U. S. Verified Origin

The records of origin for Alfalfa seed sold by us are kept in accordance with a plan approved by the U. S. Department of Agriculture and are maintained under the supervision of that Department.

**Old English  
Products**

**TURF BUILDER AND  
PLANT FOOD**

A complete fertilizer for lawns, gardens, shrubbery and trees. Every ingredient in this fertilizer has a special purpose, there is no inactive filler used to make weight. You can be sure that every bag is 100% fertilizer. This plant food contains nitrogen in three forms and includes both animal matter and chemicals. It is therefore more efficient and economical than most advertised fertilizers made solely of chemicals. This factor is very important in stimulating deep rooted turf development and aiding quick recovery from insect attack. You may rest assured that your customers will be more than pleased if they use Old English Turf Builder and Plant Food.

**100% FERTILIZER—NO FILLER!**

6% Nitrogen, 8% Available Phosphoric Acid,  
4% Potash

**SHEEP MANURE**

A dried and pulverized fertilizer quickly available for use on the lawn, garden and in the greenhouse. Not a lasting or complete plant food but carries organic matter for humus formation and shows results on lawns almost immediately.

Per 100 lbs.

LESS THAN TON LOTS..... 1.95  
TON LOTS..... WRITE FOR PRICE

FREIGHT PAID

**BONE MEAL**

A fine ground high-grade plant food, with very high phosphorous content, and containing some nitrogen. Not quickly effective as in the case of our Turf Builder, nor is bone meal a complete plant food, but may be used to advantage along with Turf Builder, fertilizer and sheep manure. May be applied at any season of the year without "watering in," with no scalding or adverse or residual effects, and to secure early and full maturity of blooms in flower gardens outdoors and in conservatories.
